Good! You may now want to read this list to someone who knows you well. Ask this person to respond how he or she believes you operate in the world and record their responses next to yours. Do not read below until you have completed this.

**Interpretation**

Hold the pages side by side and compare your answers to items 1-10 and 11-20. If you have been honest with yourself, your responses should be different for each pair of items (e.g. 1 and 11, 2 and 12, 3 and 13 . . .). If you are being honest with others, your spouse’s responses should be similar to yours. Think about items where your responses were the same for the paired items, or were different from your spouse’s.
